

Appendix R – Client Mobility Assessment Algorithm

Prior to proceeding with the Client Mobility Assessment:

- a) Ensure the client is medically safe to move including medical precautions, e.g., hip precautions. Assess client's height and weight.
- b) Assess the client's pain level and medical devices to ensure they can proceed with a client handling procedure.
- c) Ensure environmental conditions and equipment are suitable to perform the task.
- d) Ensure the caregivers are trained and competent to perform the tasks.
