New Ontario MSD Prevention Guideline

The Centre of Research Expertise for the Prevention of Musculoskeletal Disorders (CRE-MSD) has developed a new Ontario MSD Prevention Guideline, updating the 2007 version.

Musculoskeletal Disorders or MSD, represent one of the leading causes of disability and pain in workers and the largest source of employers' compensation claims. This new Guideline will assist organizations in the prevention of MSD through the use of its content and resources.

Work shouldn't hurt

Health and Safety for Leaders

PSHSA's Health and Safety for Leaders is a 2-day classroom course that provides you with the skills and knowledge related to your responsibilities as a supervisor in the promotion of health and safety. This program provides you with the knowledge needed to help you promote OHS in your workplace, to ensure compliance collectively and individually around OHS legislation, and to commit to action around improvements to OHS and culture.
