PSHSA recognized as 5-star safety trainer

We are excited to announce that PSHSA has recently been recognized by **Canadian Occupational Safety** as a 5-Star Safety and Training award winner!

"It's an honour to be recognized for the work that we do every day to make workplaces across the province safer and healthier," says Rebekah Warner, director, market optimization and client experience at PSHSA.

We would also like to congratulate PSHSA consultant, Dave Fretz for his individual recognition!

PSHSA's 2021 - 2022 Annual General Meeting

Yesterday, PSHSA held our annual general meeting. We wanted to thank everyone for joining us virtually and in-person, see you on September 28, 2023!

"This past year presented numerous new opportunities, but above all it crystallized an exciting new vision PSHSA is

actively working toward. As we look to the future, we see a connected and centralized health and safety ecosystem that takes a whole-person approach to employee wellbeing. At PSHSA, we will be investing and reinvesting in the development of emerging predictive health and safety solutions that are targeted at workplace wellbeing and on the leading edge in learning technology."

- PSHSA CEO and COO, Glenn Cullen

Our 2021 - 2022 annual report "Infinite" is now available

Health and Safety Tip

Use the 20/20/20 rule when viewing your computer screen for long periods of time to prevent eye strain. Every 20 minutes, focus on an object 20 feet away for 20 seconds.

Good ergonomics: Adapting the job to fit the person

October is Global Ergonomics Month!

This international effort to raise awareness of ergonomics and musculoskeletal disorder hazards in the workplace is a great time to look at where and how you or your employees work. PSHSA has many resources available, including training, ergonomic assessments and webinars, to help support any prevention efforts.

Updates from Ontario's Prevention System

Hazard Alert: Preventing fires caused by IV fluids getting into electrical outlets

The [Ministry of Labour, Immigration, Training and Skills Development \(MLITSD\)](#) recently posted a hazard alert related to fire hazard and IV lines dripping.

There is an increased risk of fire if IV bags (pressurized or unpressurized) are hung where there is the possibility of liquid leaking and dripping into an electrical outlet where equipment (such as an infusion or IV pump) is plugged in. This is a fire hazard in health care settings and an immediate concern for

the safety of workers.

Workplaces are encouraged to review the alert and implement the necessary actions to reduce the risk.

Using masks in the workplace

Wearing a mask correctly and consistently is an effective way to prevent getting and spreading COVID-19. The MLITSD recently posted changes to the workplace masking guidance to include additional information about mask fit and filtration.

WSIB 2023 grants competition is now open for proposals

The WSIB's Research and Grants Program enhances workplace injury and illness insurance system outcomes by supporting innovative proposals that help advance WSIB's strategic mandate.

The 2023 Research and Grants Program will focus on research that can help make Ontario the safest place to work. Four considerations for the competition include:

1. how we work
2. how we approach health and safety
3. how we support return-to-work and recovery
4. how we meet our customers' expectations

The WSIB is accepting initial proposals until Friday, October 14, 2022.
